PROGRAM OVERVIEW

What is the She CAN Coach Program?

She CAN Coach is a national coach recruitment, development, and training project designed for women to address the challenges they face regarding soccer participation.

Diverse women leaders in sport are critical in creating a welcoming and safe space for girls in sport. This project will strive to support and advance gender equity in soccer by reducing the barriers of entry for women to coach, with the hope that this will increase registration of women and girls and help to balance the gender gap in participation.

PROGRAM OVERVIEW

Why Invest in the She CAN Coach Program?

Investing in gender equity is not only the right thing to do, but it can also bring significant benefits to soccer clubs.

Soccer clubs can create a more inclusive and equitable environment that benefits everyone involved by tapping into an underserved market, improving their brand image, fostering positive team culture, and contributing to a more just society.

"Gender Equity is the process of allocating resources, programs, and decision making fairly to all genders without any discrimination on the basis of gender, and addressing any imbalances in the benefits available to people of different genders."

~ Canadian Women & Sport (CWS)

PROGRAM OVERVIEW

Who is the She CAN Coach Program designed for?

This program differs from a typical mentorship program as it involves recruitment, training, and development. It aims to support new and entry-level coaches.

As part of our efforts, we welcome current women coaches who have already begun their coaching pathway and are considered new or beginner coaches in club settings to participate in our program.

PROGRAM OVERVIEW

Desired Outcomes

We aim to increase the number of women coaching and encourage more girls to engage in the sport.

We will measure this action using the Canadian Women and Sport (CWS) data collection tool at the project's beginning and end. The program evaluation will measure the coaches' confidence level and the program's effectiveness.
